PGc Acupuncture for Pain Relief

## Memberships and Affiliations

HCPC - PH40474  
Member of the Acupuncture Association of Chartered Physiotherapists

## Biography

Ceri qualified as a Chartered Physiotherapist in 2002 and went on to complete his master's degree in Physiotherapy in 2007. He is fully registered with both the Chartered Society of Physiotherapy and the Health and Care Professions Council.

Following his initial junior physiotherapy rotations at the Princess of Wales Hospital in Bridgend, Ceri broadened his clinical experience by working in New Zealand before returning to the UK to take up positions within the private sector, including roles across BMI and BUPA hospitals. These diverse settings enabled him to refine his expertise in orthopaedic injury management, chronic pain, and sports-related rehabilitation.

Since 2007, Ceri has been extensively involved in case managing personal injury patients, supporting individuals with a wide spectrum of needs. His caseload has included those with catastrophic, life-changing injuries such as multiple fractures, amputations, and complex musculoskeletal conditions, as well as patients presenting with head injuries, neurological conditions—including Functional Neurological Disorder (FND)—and significant psychological trauma. His clinical approach is grounded in compassionate care, evidence-based practice, and a commitment to helping patients regain function, independence, and quality of life.

*\* Please note that following the INA or similar assessment, we will always aim for the ongoing case management to be completed by the assessing case manager. In the instance this is not possible, the case will be delegated to our experienced inhouse case management team to provide remote support.*
