CMSUK - 25-15930-A

Biography

Manfred qualified as a physiotherapist in 1993 and went on to study Psychology at the University of Maastricht. He has also completed formal training as a disability analyst.

Manfred began as a case manager in 2010 and has experience supporting clients with severe injuries following RTAs or work-related incidents. He provides immediate needs assessments and delivers bespoke rehabilitation programmes for patients with complex trauma and with long-term persistent pain problems such as CRPS and fibromyalgia.

He has extensive experience in orthopaedics, MSK conditions, neurology (including brain injury and FND), mental health, and general disability. Manfred has been working with patients with advanced dementia and palliative care needs since 2025.

** Please note that following the INA or similar assessment, we will always aim for the ongoing case management to be completed by the assessing case manager. In the instance this is not possible, the case will be delegated to our experienced in-house case management team to provide remote support.*
